

United States District Court  
MIDDLE DISTRICT OF FLORIDA

Orlando Division

Annotation Monitor Quick Reference

Annotation monitors are available to the attorney and witness to emphasize and clarify exhibits used during a proceeding. Any exhibit displayed, whether from a laptop, document camera, or video, can be marked using various colors and pointers. The following is a brief overview meant to be used for quick reference.

**Touch Screen Control Areas:**

<b>Annotation Area:</b>	Any area on the touch screen where you draw and point using your finger or a stylus.
<b>Function Areas:</b>	The three corners on the touch screen that, when tapped, activate a function listed above.

**Functions:**

Please note that functions areas are very close to the screen edge to allow for the most complete annotation area. Tap the screen very close to the edge of the screen where indicated for the appropriate function.

<b>Change marker color:</b>	Tap upper left corner to toggle through available colors.
<b>Draw:</b>	Press and drag finger or stylus.
<b>Erase Last:</b>	Tap top right corner to erase just the last mark.
<b>Clear Screen:</b>	Tap bottom left corner to clear all markings.
