

UNITED STATES DISTRICT COURT  
MIDDLE DISTRICT OF FLORIDA  
JACKSONVILLE DIVISION

**IN RE: Use of Generative Artificial  
Intelligence**

---

**STANDING ORDER**

Due to the increasing use of generative artificial intelligence (“AI”) in the researching and drafting of legal documents, including pleadings, motions, briefs, and other filings, the undersigned requires all parties appearing before her, through counsel or pro se, to certify at the end of any filing:

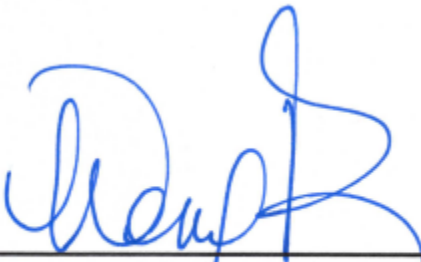

- (1) That no generative AI was used in the drafting and preparation of the filing; or
- (2) To the extent that generative AI was used in any drafting of the filing, that any language drafted by AI—even if later edited by a human—was personally reviewed by the filer or another human for accuracy and that all legal citations reference actual, non-fictitious cases or cited authority and accurately reflect the contents of such authority.

The AI Certification does not count against any page limitations.

Filings that do not comply with this Order may be stricken without substantive consideration and without leave to amend. Numerous failures to comply with the certification requirement set forth in this Order or to otherwise properly review and ensure the accuracy of AI generated content will result in sanctions up to and including dismissal of claims with prejudice, default, and referral to the proper licensing authority.

All filings remain subject to Federal Rule of Civil Procedure 11, 28 U.S.C. § 1927, and applicable ethical rules.

**DONE AND ORDERED** in Jacksonville, Florida on April 2, 2026.
